

New York Transco

Building a Clean Energy Future Together

Our Company

New York Transco (“Transco”) is a New York-based, New York-focused developer, owner and operator of electric transmission solutions and facilities that serve customers in New York. We are proudly staffed and headquartered in Hudson, New York.

Our Focus

Transco knows the New York grid and our energy challenges. Our mission is to safely and efficiently deliver innovative electric transmission solutions that advance clean energy to best serve customers, communities and the environment. We do so by:

- building community connections
- supporting local jobs & economies
- improving system reliability
- relieving congestion
- reducing energy prices

Our Values

Safety

Innovation

Excellence

Collaboration

Agility

Our Capabilities

Transco leverages over a century of New York energy experience. Our capabilities span engineering, project management, construction, financing, regulatory, legal and stakeholder engagement. Our skillset, experience, relationships and New York know-how are what set Transco apart. In short, we are a team of problem solvers for New York’s complex energy delivery challenges.

How We Can Help

Transco is committed to innovatively improving the New York electric transmission grid to deliver more renewables to customers and to keep our economy growing. We stand ready to:

- leverage private investment
- engineer and permit projects
- hit milestones on-time and on-budget
- control costs
- build partnerships
- shift risks from customers
