Construction Notice

Dear Neighbors,

Please accept this update from New York Transco (NY Transco) regarding construction activities at the New York Transco-owned Dover Station property at 2238 Route 22 Dover, NY (Site). Below is an anticipated schedule of activities over the coming months. Please note this is subject to change.

- **October–December**
 - Begin transmission line work on the existing Con Edison 398 line in right-of-way. This will be accessed off Cricket Hill Rd from the existing Con Edison access point and/or Route 22; general locations noted in map below.
 - Continue foundation work for phase angle regulators (transformers)
- **November–December**
 - Delivery of phase angle regulators (transformer) and control unit equipment

Safety is our top priority! As such, please do not enter the construction site or approach construction crews/equipment. If you need to speak to a project representative, please reach out either via phone or email with questions or for more information. Please anticipate future communications on our progress or various activities at the Site.

We look forward to keeping you updated on progress and welcome your questions.

Thank you,

Shannon Baxevanis
Director of Communications & Public
Affairs, New York Transco
