## Construction Notice

Please accept this update from New York Transco (NY Transco) regarding upcoming construction activities at the New York Transco-owned Dover Station property at 2238 Route 22 Dover, NY (Site). Please note this is subject to change.

Delivery of Phase Angle Regulators (transformers) – this equipment will be delivered in two separate efforts in November and December respectively. All deliveries are being closely coordinated with stakeholders, including the NYS Department of Transportation, Dutchess County and the NYS Police, among others.

- First delivery → anticipated to arrive on site during the early morning hours of Monday, November 25.
- Second delivery → anticipated to arrive on site early the second week of December; pending confirmation.

Safety is our top priority! As such, please do not enter the construction site or approach construction crews/equipment. If you need to speak to a project representative, please reach out either via phone or email with questions or for more information. Please anticipate future communications on our progress or various activities at the Site.

We look forward to keeping you updated on progress and welcome your questions.

Thank you,

Shannon Baxevanis

Director of Communications & Public Affairs, New York Transco
