Construction Notice

Please accept this update from New York Transco (NY Transco) regarding upcoming construction activities at the New York Transco-owned Dover Station property at 2238 Route 22 Dover, NY (Site). Please note this is subject to change.

Delivery of Phase Angle Regulators (transformers) – the second phase angle regulator (PAR) is planned for delivery to the Site this week. The first successful delivery and installation occurred in late November.

Control Unit – the control unit is anticipated for delivery to the Site in early January 2025.

All deliveries are being closely coordinated with stakeholders, including the NYS Department of Transportation, Dutchess County and the NYS Police, among others.

Safety is our top priority! As such, please do not enter the construction site or approach construction crews/equipment. If you need to speak to a project representative, please reach out either via phone or email with questions or for more information. Please anticipate future communications on our progress or various activities at the Site.

We look forward to keeping you updated on progress and welcome your questions.

Thank you,

Shannon Baxevanis
Director of Communications & Public Affairs
New York Transco
